

Life Certificates 2023 – Important Notice

Over the last year, a Life Certificate process was carried out with certificates issued to all members and spouses in receipt of pensions from the RTÉSA. In accordance with the Regulations of the RTÉSA, the Trustees are required to hold documented evidence of pensioner existence and certificates are reviewed as part of the annual audit process.

While the majority of pensioners provided the completed certificate within the requested timeframe, there remains a small number of cases where no certificate has been returned despite a number of reminders being issued.

The Trustees of the RTÉSA have made a decision that **individuals for whom certificates remain outstanding will have their RTÉSA pension suspended** until such time as the appropriately witnessed certificate is returned. This suspension will commence as part of the September pension payroll. Please note that pensions will be reinstated in full once the appropriately completed certificate is received.

If you have not submitted your 2023 certificate, please do so by **Friday September 6** to ensure that your pension continues without interruption. Please note that during August we will attempt to make contact again with all those for whom no form has been received in order to minimise the number of suspensions.

Please note that the Life Certificate process for 2024 will begin shortly thereafter and we would ask that all in those in receipt of a pension return their certificate in a timely manner.

Any requests for an additional copy of the 2023 certificate should be addressed to Pensions@rte.ie
